

FOMAT[®]
MEDICAL RESEARCH

**Innovating Healthcare
Through Diversity**

Study Start-Up Times

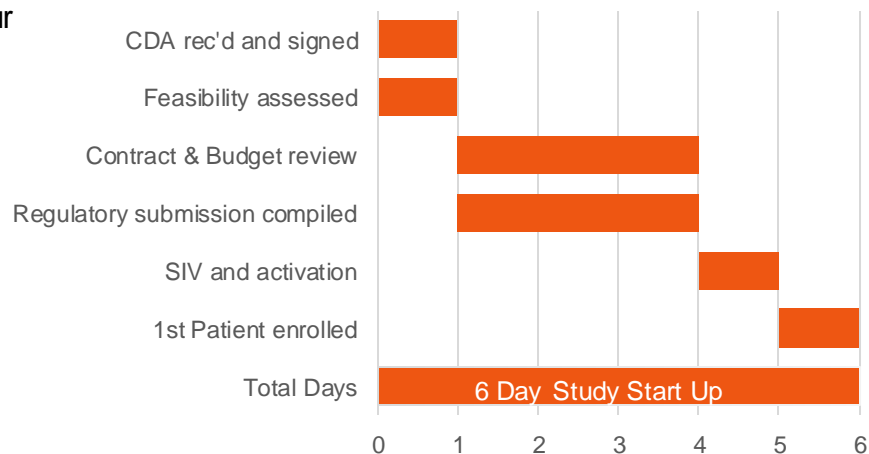

Case Study

- COVID-19 Treatment Study
- Phase 3
- Patient population- children and adults with positive SARS-CoV-2 test and symptom onset within past 7 days

FOMAT Medical Research is committed to a 48-hour turn-around time on

- ✓ Feasibility questionnaires
- ✓ Regulatory documents
- ✓ Budget and contract response

At the time, 6 days was the fastest start up time for both the sponsor and CRO

Timely Enrollment

Case Study

- COVID-19 Treatment Study
- Phase 3
- Patient population- children and adults with positive SARS-CoV-2 test and symptom onset within past 7 days

Patients were referred from several sources including the PI office and FOMAT website. At that time, the Ventura County Public Health Department listed FOMAT Medical Research as the only site in Ventura County (population 850,000 and adjacent to Los Angeles County, population 10 million) for access to COVID related clinical trials. Finally, FOMAT established a drive through testing area across the street from our dedicated research facility which saw up to 150 patients per day.

Target Enrollment	7
Actual Enrollment	149
SF Rate	6%

Diverse Enrollment

Case Study

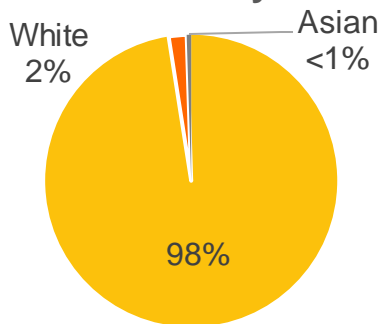

- Phase 3 COVID-19 Treatment Study
- Patient population- children and adults with positive SARS-CoV-2 test and symptom onset within past 7 days
